New York N Y., August 6.—College soccer players are interesting themselves in a movement to organize a club to be devoted to association footbalf on the lines of the famous Corinthan Football Club of England, which has sent a team over here for a Canadian and United States tour. Its mempership with he limited to college players and graduates. The plan of organization comprehends distinct clubs, entirely independent of each other, in New York, Philadelphia and Boston. This, it is thought, will lead to intercity and possibly international fixtures. In New York the leading spirit is Lloyd G. Kistler, of £0 Broad Street, the former star halfback of the Columbia University champion intercollegiate team. Other well-known college players ready to support the

movement are Geoffrey J. Dwyer, for-mer Columbia captain: Charles B. Spencer, another famous Columbia player, and Ray MoNulty, who has played both for Yale and the Crescent Athletic Club, Albert G. Costello, James Yost, H. O. Irving and P. Chase, all of the University of Pennsylvania, and John H. Belmont, of Harvard, are committed to the cause.

Copious rains have fallen during the past two days in this section of the Shenandoah Valley, for the Birst time in more than a month, and fruit men have been much encouraged, for the long drought had become a matter of much concern. Apple buyers from a distage, who have been here for several weeks, were slow to negotiate for the purchase of the crops in the arge commercial orchards of Frederick county, but since the rains have fallen and the orchards revived, a number of important deals have been dosed. It was stated vesterday that he price of apples will be much higher here this year than for a long time, principally on account of complete allures in certain other sections which re usually depended upon to furnish. Land owners on top of the Blue Ridge Mountain, near Bluemont and Mount Weather, where the government has a signal station, are reaping a harvest of money from the sale of quarter-acre lots for guniner cottages by people from Washington, who are heeding the "back-to-the-land" cry. A tract has been divided into quarter-acre lots, and some of these have been sold for \$500 cash. Only a few years ago some of the land now bringing such enormous prices could be bought for \$10 an acre.

In Letter to Editor Speaker Tells Why He Is Not Candidate.

"I want to thank you for the things you have said about me in connection with the presidential nomination and otherwise. While I am not a candidate for President, and may never be, I consider it a great compliment to be I consider it a great compliment to be thought of or mentioned in that high connection by my fellow citizens. The victory of last November was won on the fight that was made by the House Democratic against Cannonism, the rules and the Payne tariff bill. That was a great victory. We not only elected a Democratic House, but carried into office with us half a dozen Democratic Governors of Northern States. As a result of it the Party placed me in the most responsible position it had to give. My duty is here helping the House to make good, and I am going to stay here as long as there is anything here for me to do in other words, I am not going to neglect the work here in order to run around the country after another office. I regard the record we are making in our Democratic House as superfice to the people, and we will continue to the people, and we will continue on it. I line. I thank you for the kind things that you say about me, and am glad to observe that you are pleased with the way the Democratic are demonstrating their capacity to run the House. They can run all branches of the government just as successfully if given the opportunity, and I believe the work of this House will result in our controlling them after the next election.
